

From Solon 2 MW to Romania

Carmignano di Brenta, 2 July 2014. Solon has signed an agreement for the supply of 2 MW of PV modules for the Romanian market. The 8700 polycrystalline SOLON Blue 220/16 will be used to build a large solar power plant in Dârvari city.

"This agreement marks yet another corner stone of the new corporate strategy in the international market - Simone Quaratino, Director of the SOLON SpA said - Solon has been focusing on the emerging markets and that success just proved that courage and Innovation can open new doors.

Our team is a good mix of international dedicated people, which allows us to build a good foundation for the future".
